

NVR Remote Login

- Go to the following address: <http://99.140.43.20:85>
- From here you may choose one of the following:

Online Monitoring

(Live View Only. Requires proper ActiveX Settings – IE only)

(Click the ActiveX Controls & Settings Link for a complete walkthrough on how to do so)

Download Remote Application

(Download our Remote Player Software to your Desktop. You can have near full functionality with the proper permissions)

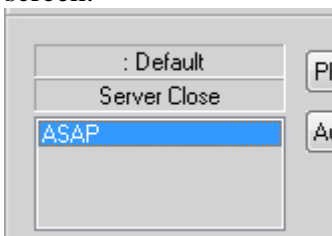

- Once you download the **Remote Application**, double click on the installed icon on your desktop.
- Now click the **Setup** Icon on the lower right-hand corner of the screen.
(the icon looks like a hammer and wrench)

- Then click on the **Network** link from the top row of icons.
- Now enter the following information:
- When finished, click the Add Server button *(looks like a “+” Plus sign)*
- Then **Save** and **Exit** in the top right-hand corner.

Server Name	ASAP
IP	99.140.43.20
Port	2222

- Once the Address is saved, you can double click on “**ASAP**” in the lower left-hand corner of the screen.

- Key in the **ID** and **Password** as follows:

ID	guest
Password	4321
